

## AQUATHERM

### TECHNICAL DATA SHEET

Prism Coatings and Inks Ltd is pleased to introduce **Aquatherm Inks**, a new series where heat resistance requirements of 190°C are required.

This new series of **Aquatherm Inks** offers the printer excellent press stability at low anilox volumes.

**Aquatherm Ink** series requires less press maintenance, has lower odour and provides excellent press stability.

**Aquatherm Ink** is formulated to print on a wide variety of substrates, and can be used in conjunction with an over print varnish to increase gloss and heat resistance

**Aquatherm Ink** can be used for Direct Thermal.

Benefits	Features
Ph stable	Excellent press stability
Strong vivid colours	Excellent ink milage
Prints clean with excellent resolubility	Less downtime
Dispensing systems-automatic/semi automatic	Improved make ready time and lower made ready waste

**Note: The foregoing is a technical specification and does not constitute a warranty express or implied. It is recommended that testing should be carried out prior to use.**
